

the *futures* foundation

... creating better futures...

All over the world, people are beginning to understand that the future is not somewhere we are going. It is something we are creating.

Some of us are concerned about the kind of futures we see being created by our traditional leaders and institutions. If we want our children and theirs to live in a world that is worth living in, it's time to act.

By joining the *futures* foundation, you can team up with other people who also want to create better futures. We help each other to become powerful agents for change – citizens who are prepared to share responsibility for actively creating the future of the world we live in, rather than blaming governments and corporate leaders for getting things wrong.

Through events, publications, research and conversation, the *futures* foundation provides members with a unique platform from which to consider and create new futures. Almost all of Australia's practising futurists are members of the *futures* foundation and work with us in introducing futures thinking to government, corporate and community organisations. After ten years of working together, the *futures* foundation is already a rich network of future-focussed consultants, organisations and individuals, and is closely networked with other top thinkers and information resources in futures around the world.

Benefits of membership start with making a tangible contribution to the future; plus

- * exclusive access to our newsletters, *futures news* and *future active*
- * discounted attendance at conversations, events, forums and conferences about the future
- * access to the futures foundation resource base (in collaboration with the University of Technology, Sydney library)
- * a network of like-minded individuals and organisations, and the collective wisdom (and consulting services) of many of the world's top futurists and thinkers.

To join the *futures* foundation, please complete the application form below and send it back to us. We would also be grateful if you would answer these questions:

- 1, What would be the most valuable thing the *futures* foundation could do for you during the next twelve months?
2. What is the most significant thing you could do for the *futures* foundation over the next twelve months?
3. What similar organisations or networks are you part of?

Please let us know also if you would like to volunteer time or specialist skills.

Welcome. We look forward to working with you to create better futures.

Charles Brass, chairman

the *futures* foundation

Application for membership

If appropriate, please accept this as a tax invoice – ABN 68 067 598 707

Name
